BBVA, S.A. REDEEMABLE INSTRUMENTS IN 2019/21 WERE CALLED AT FIRST RESET DATE

BBVA, S.A. €BN	2022 Executed	2022 Strategy ¹ (subject to market conditions)
AT1	--	We do not foresee any sizeable transaction given our solid position; we could tap the market with an AT1 for a limited amount this year and depending on market conditions ²
Tier 2	--	
SNP	€ 1 bn	€ 2-3 bn SP-SNP per year primary motivated by a lower eligibility for MREL of those instruments that are entering its last year of life
SP	--	At least 1 transaction per year in ESG format
CBs	--	No issuance expected

(1) Supervisory, Macro prudential and Resolution authorities' decisions on own funds, buffers and MREL requirements could trigger the amendment of the current funding plan

(2) Next call option May-22: 2017 €0.5 bn AT1 5.875% NC5

Subsidiaries: **Mexico & Turkey** Issuances subject to market conditions

Both the MREL and Subordination requirements are aligned with our expectations in terms of amount and calendar and we already comply with them

Given our comfortable liquidity and capital position of AT1, T2 and MREL, there would be no need to refinance maturities and call options to keep on complying with requirements (both prudential and MREL)
